

Colchester Angling Preservation Society

Health and Safety Policy

C.A.P.S is committed to ensuring the Health and safety of a general membership on club waters.

In particular, C.A.P.S will ensure:

- It provides and maintains safe and healthy fisheries.
- Effective systems of communication and consultation on health and Safety via our Website and Officers.
- That members and third parties are at all times responsible for their own health and safety while on our waters. C.A.P.S cannot be held responsible for any consequences and actions will arise from the breaking of these club rules.
- Contractors will provide the club with a copy of their own insurance cover, plus they will maintain management of their own health and safety while on our club waters.
- Health and Safety standards are maintained using industry and health and safety executive guidance where possible.
- Health and safety will be audited and reviewed within our own safety management system.
- C.A.P.S actively complies with Health and Safety law.
